Patient Care

POLICY AND COMMUNICATIONS BULLETIN

THE CLINICAL CENTER

Medical Administrative Series

M90-6 (rev.)

23 August 2000

SUBJECT: Clinical Privileges for Trainees

PURPOSE

To set forth the policy of the Medical Executive Committee regarding the status of trainees relative to the granting of clinical privileges.

POLICY

Persons who have obtained their medical or dental degree and who may be participating in fellowship, residency, or other training programs at the Warren Grant Magnuson Clinical Center (CC) will be granted the same privileges and responsibilities as any other member of the Junior Staff. Prior to the award of a medical or dental degree, persons who may be participating in any type of training program will be treated as medical or dental students.

EXPLANATION

One determining factor for the granting of credentials and clinical privileges at the CC is the awarding of a medical or dental degree. If an applicant for privileges has been awarded such a degree, he/she may be considered for membership in the Junior Staff even though that individual may not have completed his/her graduate medical education.

However, individuals participating in any type of training prior

to the award of a medical or dental degree will be considered medical or dental students, and will be allowed to participate in patient-care activities at the CC only under the close supervision of Senior Staff. They will be permitted to do only those things consonant with their level of training, and counter-signatures by Senior Staff will be required on all medical orders, medical reports, and medical record entries.
